EXPERIENCE (6+ years)
BlockTheory(DesignString formerly) - Sr. Frontend Developer. - 2021 (Mar) - curr - 3.6 years
Bengaluru

Showcased my animation skills using Framer Motion on our company website's decoded pages Link and for our client, Coin Fantasy Link. Created engaging, responsive webpages that enhance user experience and seamlessly integrate with design elements.

Developed an interactive UI for decentralized finance applications using Vue.js on InstaDApp, improving user engagement and experience.

Built a user-friendly interface for crypto wallet management using Vue.js for the Avocado App

Delivered **9+ products** across Ride-hailing, Sales, Fintech, Crypto wallets, **leading 4 projects as Lead.**

Spearheaded development of versatile client applications which includes **Server Side Rendered Application, Cross Mobile Application, Browser Extension, Single Page Application** .

Collaborated with colleagues to establish a **unified code style and design guide**, enhancing code clarity and facilitating **cross-team collaboration** using Tools like Webpack, Vite**,** Prettier, ESLint.

Provided **mentorship** to **3+ Jr dev's**, guiding them in coding & offering feedback to ensure their ongoing skill advancement.

Implemented a robust **CI/CD** pipeline with automated formatting, linting, builds, image optimization, and package compression, streamlining **development** and **deployment**.

Architected and implemented a monorepo solution for a FinTech wallet across web (Next.js), and Chrome extension (React), streamlining development and ensuring consistency for resharing logic, UI, and content

Led collaborative feedback for bridging the gap between design and development execution using **Storybook**.

Hiveminds Innovative Market Solutions Pvt Ltd - (May 2018 - Jul 2019) - 1.3 year   **Bengaluru**
I focused on developing websites and creating HTML5 ads using Adobe tools, enhancing digital marketing efforts. I learned to create animations with keyframes, adding dynamic elements to campaigns and improving interactivity. This experience also involved optimizing for SEO, deepening my skills in web design and digital marketing strategies.

Global trendz - **Web Designer - (Mar 2016 - Jun 2017) - 1.4 year**   **Chennai**
In my first company, I developed multiple websites using HTML, CSS, and JavaScript, leveraging Bootstrap for responsive design. I also utilized Adobe Photoshop for image optimization and resizing, ensuring high-quality visuals while enhancing overall user experience.

EDUCATION

Meenakshi Ramaswamy Engineering College, Ariyalur District, Tamilnadu **- B.E, CSE**   (2010-2014)
